

# IT Disaster Recovery – Technology Primer Course

## KEY TOPICS

Disaster Recovery Data  
and Replication

Disaster Recovery  
Server Infrastructure

Disaster Recovery  
Storage & Applications

Disaster Recovery Voice  
Communications

Disaster Recovery  
Alternate Sites

Consolidating DR  
Technologies into a  
Coherent Solution

Implementation  
Considerations

Case studies

*This course is aimed at the person responsible for the selection and implementation of technologies to support IT Disaster Recovery, or for managers needing a broad understanding of the different types of IT DR technology.*

*Rather than promoting any individual vendor solution, this course provides:*

- > a conceptual overview of various technologies available to underpin an IT DR environment*
- > examples of commercially available products, and*
- > considerations on how to select and implement commercially available products.*

*Case studies are also provided showing how organisations have implemented these technologies to address their IT DR needs.*

## **YOUR COURSE PRESENTER**

The IT Disaster Recovery – Technology Primer Course will be presented by one of:

### **Rod Crowder, Managing Director, Ops Centre**

Rod is founder and managing director of OpsCentre, a boutique managed services and consultancy provider of Business Continuity and Disaster Recovery services.

Over the last 12 years, Rod has assisted numerous public and private sector organisations to plan and manage IT Disaster Recovery projects, in both a consultancy and hands-on operational capacity.

Rod's management qualifications in the IT Infrastructure Library (ITIL) and Project Management lead to his strong understanding of Service Level and Availability Management and how these disciplines are underpinned by good-practice IT DR solutions.

### **Darrin Gay, Principal Consultant, Ops Centre**

Over the last 10 years, Darrin has assisted numerous public and private sector organisations to plan and manage IT Disaster Recovery projects, in both a consultancy and at a hands-on operational capacity.

Darrin has a thorough understanding of client business requirements underpinned by good-practice IT DR solutions that has delivered the necessary mix of technical and procedural solutions for the projects that he has managed.
