

ONE BCM Solution!

Solutions for Risk, BCM, DR
Emergency & Crisis Mgmt

Founded in 1999 by experts in business continuity, disaster recovery and crisis management, RecoveryPlanner is a leading provider of risk, business continuity management, planning and software. RecoveryPlanner assists organizations of all sizes and industries by facilitating the creation of effective, actionable and easily maintainable enterprise-wide planning and recovery solutions.

RecoveryPlanner's web-based software, RPX, encompasses all components of Business Continuity Planning (BCP), Disaster Recovery (DR), Risk, Business Impact Analysis (BIA), incident response and management in ONE integrated, web-based solution. RPX uses the full capability of the Internet and meets the high demand of the business community while delivering the highest ROI, reducing risk and speeding implementation. Coupled with attentive and expert services, RPX simplifies and accelerates the process of risk assessment, BIA, plan development, testing, distribution, updating and auditing; incident management, communications and automatic notification services.

We host the software [Software as a Service (SaaS)] so you do not have to worry about additional hardware, software or personnel costs, but if you prefer to host the software, we provide this option too. Using this comprehensive end to end application, a company now has the ability to develop and maintain its business continuity plan(s) and risk assessments in a highly secure, easily accessible web environment. Your plans can be accessed by simply logging on to the Web from anywhere in the world. This assures that everyone always has the most current version of your plan(s) and provides the ability to interactively track and manage incidents remotely and in real-time.

RecoveryPlanner's professional services encompass all steps of the business continuity planning process, such as: BIA, Risk Assessment, development of BCP/DR Plans, Alternate Site Selection assistance and Recovery Strategy development, Incident Response, Plan Maintenance, Exercising, Review, as well as Awareness training. Our experienced and certified contingency planners have developed business continuity management and risk consulting services to companies, both foreign and domestic, of all sizes and across all industries.
