

**RPX** Be Prepared for the Unexpected

Since 1999, RecoveryPlanner has been providing the web-based Business Continuity Planning (BCP) and recovery software, **RPX**, for organizations of all sizes and industries. RPX assists organizations with making BCP, Incident Response and Continuity less complicated, and will save you time and reduce costs. Our certified planners have designed a Plan template and provide content to help guide you, and the customized kick-off training and continuous free self-help training makes the planning process easier. RecoveryPlanner's RPX Services are award winning and a recognized leader in the industry. Our clients enjoy our dedicated and responsive Support for RPX and Business Continuity inquiries. Here is what the industry and our clients are saying:

**Industry Recognitions**

- In Gartner's 2013 Magic Quadrant for Business Continuity Management Planning Software, RecoveryPlanner received the highest rating for RPX's "Ability to Execute" and is positioned as a "Leader" in the industry.
- RecoveryPlanner and RPX are winners of the DRI International Awards of Excellence for "Service Provider of the Year" and "Planning Software of the Year".

**Testimonials - RecoveryPlanner, RPX and Our Support**

♦ "RPX gives us the facts in a chaotic situation...It becomes our life line during a disaster" - BCP Mgr, Enterprise Software Company ♦ "RPX works exactly as demonstrated and continues to impress" - Head of Business Continuity, A Stock Exchange ♦ "The support is excellent, and company is very open to customer suggestions which frequently make their way into the system updates" - BCP Mgr, Pharmaceutical, Biotechnology & Medical Device Research Consulting Co. ♦ "If the quality of a firm's employees is an indication of future success, then your company has a very bright future" - Director LAN Services and Senior Disaster Recovery Administrator IS&T, International Service Company ♦ "During our relationship the entire staff has consistently exceeded my expectations. I cannot say enough about their level of commitment to the RPX product" - Chief Compliance Officer, Service Provider to Community Banks

**Plan Creation & Updates**

**Efficiency:** Eliminates duplication of effort. Populate globally - change globally. No search-and-replace; change it once and done.

**Ease of Use:** Besides default Plan templates, content reports & checklists, RPX provides you the ability to create your own plans or templates. Allows for simplified management of the process.

**Automation:** Automating manual tasks brings large time savings with features such as triggered emails, approval processes, scheduling, assignment, follow-up and monitor.

**Incidents & Exercising**

The interactive features of RPX provides real time management of an Incident, whether it is a pre-planned test, a minor event or a major disaster. The Incident Dashboard is a virtual command center. Email tasks or end users access them easily. RPX's standard unlimited user license assures access to the most current Plan(s).

**Audit & Compliance**

Auditors can easily retrieve the information they need from RPX. Audit trails are automatically created showing all revisions, exercises and incident documentation. Hard-copies of Plans are easily produced. RPX stays current with pertinent BCP standards, regulations and frameworks so we can help you meet your regulatory requirements and audits.

**Automatic Notifications**

Automatically notify employees, customers, vendors, stakeholders, etc. on all communication devices & manage responses right on RPX. Unlimited notification lists for predetermined distribution lists or send to people on the fly. In addition to incident notifications, RPX provides various plan and maintenance related reminders and notifications, such as contract expirations, automatic plan maintenance and review scheduling, workflows/revisions, to do's & weather alerting.
