

Post Covid-19 Pandemic Review

2020 Challenges

The Covid-19 Pandemic has brought unprecedented change across countries, industries and businesses; forcing them to fast-track years of strategic, operational and technology planning within weeks or months. Even if you already had a Pandemic Plan in place, the experience has likely been costly, unstructured and chaotic. Before the corporate knowledge that has been amassed in 2020 is forgotten forever, it should be captured and recorded via an interim Post-Pandemic Review. Emergency Management Plans, Business Strategies, Continuity Plans, Pandemic Response Plans, Communications and Technology Plans need to be updated; followed by Training & Awareness programs for your staff.

Business Review

Have you considered the new ways of working and evolving business models, such as:

- New-era Risks and Operations Resilience Analysis?
 - Changes in business processes, criticality and responses?
 - New legislation and compliance requirements
 - Working from home arrangements?
 - Communications and collaboration methods ?
 - Pandemic-specific considerations?
 - Insurance Considerations
- Corporate Policies also need updating, relating to:
- Legislation and Compliance
 - Workplace Health & Safety
 - Business & Personal Travel
 - Pandemic-related expenses

Technology Review

Given the rapid migration of staff from corporate offices to working from home, technology changes should also be reviewed, including:

- Cloud Computing
- Applications deployed in response to Covid-19
- Data & Voice Communications
- Remote Working IT infrastructure, Security & Processes
- IT Asset Management
- Cyber Security
- Adequacy of Software Licensing
- Data Resilience, Backup & Archiving

Every businesses suffered in 2020, don't let your investment in Corporate Strategy, Operations & Information Technologies become a distant memory before 2021 arrives.
